

[Call for Participants (Deadline: **April 6, 2026**, JST)]

IRCEN Neuro-inspired Computation Summer Course

We are pleased to announce that WPI-IRCEN will hold the “IRCEN Neuro-inspired Computation Summer Course” from July 22 to 25, 2026, at the Yayoi Auditorium Ichijo Hall, The University of Tokyo.

This course invites early-career researchers from diverse fields to explore the frontier where natural and artificial intelligence converge. We encourage applications from motivated researchers across disciplines.

We would appreciate your support in sharing this opportunity with colleagues who may be interested.

We invite you to review the full program details and application information here:
